DORIS™

An ISO 9001:2015 Company

INNOVATIVE TANK SOLUTIONS FOR THE MODERN WORLD

About Us

Doris is a rapidly expanding commercial entity, renowned as a worldwide supplier of polymer water tanks.

As a rapidly growing company, we are dedicated to providing top-notch products to customers both in India and around the world. Our polymer water tanks are the healthiest on the market, made from high-quality materials that have been approved by the FDA. Additionally, we take pride in using materials that are free from any cancer-causing substances, ensuring that our tanks are not only effective but also safe for use. At Doris, we strive to maintain our position as the go-to choice for reliable and healthy water storage solutions.

REFRESHING & FULFILLING, NO MATTER THE SEASON!

Cool Tank

In scorching temperatures, water can heat up, making it unpleasant to use. The Cool Tank solves this problem with its advanced heat-resistant technology, ensuring that water remains cool and refreshing even in extreme weather conditions. Its multi-layer insulation not only prevents temperature fluctuations but also inhibits algae formation, keeping your water clean and safe for longer periods. Ideal for areas with high temperatures, this tank ensures comfort and freshness all year round.

Anti- Bacterial White Layer

(Protect From Bacteria &
Clear Visibility of Water)

Transparent Cooling Layer

(Maintain Water Temperature)

Black Layer

(Protect From U.V. Radiation)

100% Virgin White UV Layer

(Protect From Direct Sun Light)

CLEAN, SAFE, FULFILLMENT FLOWS

DORIS *Pure*
Anti microbial

Introducing Doris' premium Anti-Microbial Pure Tank - the perfect solution for clean and safe water storage. Made with advanced technology, this tank is guaranteed to eliminate harmful bacteria and keep your water pure. Ideal for homes, offices, and industrial use. Get your hands on the best tank in the market today!

PROTECTING
PURITY WITH
EFFORTLESS
HYGIENE!

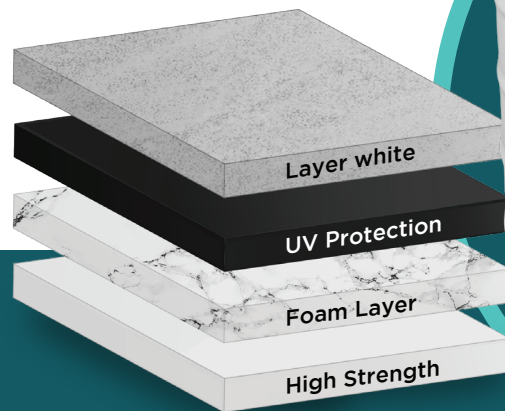

EASY CLEAN TANK

Keeping water tanks clean can be a challenge, but the Self-Cleaning Tank eliminates the hassle with its innovative nano-coating technology. This special coating prevents dirt, bacteria, and algae buildup, reducing the need for frequent cleaning while ensuring consistently pure water. With its smooth, non-stick interior, impurities simply wash away, making it a perfect choice for homes and businesses that prioritize hygiene and convenience.

NATURE'S SHIELD FOR LASTING HEALTH

4 LAYER FOAM TANK

Harnessing the natural power of foam, this advanced 4-layer tank promotes healthier living. Foam's antimicrobial properties help eliminate harmful bacteria and viruses, supporting a strong immune system. Crafted with corrosion-resistant materials and built for long-lasting performance, the 4-layer foam tank offers a perfect blend of traditional wisdom and modern durability, delivering pure, cool, and healthy water every day.

HEALTHY, HYGIENIC TANKS, NO MORE RISKS!

STRENGTH AND RELIABILITY, BUILT INTO EVERY TANK.

Why choose us?

100% virgin:

100% pure, high-quality LLDPE material, ensuring maximum durability and longevity.

Durable:

Our tanks are built to last, with heavy-duty construction and premium materials that withstand even the harshest conditions.

FDA Approved:

Our tanks have been thoroughly tested and are approved by the FDA, giving you peace of mind when it comes to the safety of your water.

Food grade (LLDP):

Our tanks are made from food-grade LLDPE, ensuring that the water stored inside is safe for consumption.

Hygienic:

We take hygiene seriously, and our tanks are designed to prevent the growth of bacteria & other harmful microorganisms.

UV stabilised:

Our tanks are UV stabilised, ensuring they don't break down or degrade when exposed to direct sunlight.

Cancer free:

Free from cancer-causing chemicals, making them a safe and eco-friendly choice for your water storage needs.

Plumber's choice:

The preferred choice of professional plumbers, who appreciate their quality and durability.

Anti microbial:

Our tanks are treated with antimicrobial agents, providing an extra layer of protection against harmful microorganisms.

Multi-layer water tank:

Multiple layers of protection, ensuring that the water inside stays clean, fresh and safe.
